The Upsilantian. There was much to contend with in a new place, but Christians presented a

OBITUARY.

MRS. MARY ANN POST.

Died, at Ypsilanti, Mich., Feb. 20, 1888, Mrs. Mary Ann Post, wife of the late active in the Master's service. I remem-Ariovistus and Eliza Platt Pardee, and was constant attendant upon all the services After a journey of two weeks by canal, or people. In times of special religious steamboat and wagon they arrived, on a interest I distinctly remember the daily lovely June morning, on the outskirts of prayer meeting held before daylight, Ypsilanti. As the train of immigrant which Mr. and Mrs. Post, I doubt not, wagons filed over the hill on the east bank uniformly attended. I remember also the of the Huron the last rays of the setting meetings of Presbytery when father, sun fell on the little village, and to use her mother and children spread their beds own words, "the sight was like Eden-a upon the floor that their guests might be little Paradise." Here the remainder of accommodated. And, with the added her life work was accomplished.

and in it she was the guiding spirit, her who counted sacrifices sweet for Christ's vigorous character molding and shaping sake. the lives of those who came under her influence. Her children will ever remember her as a faithful wife, a devoted and in the "maternal meeting." Is it not self-sacrificing mother. Next to the love pleasant to think that even now there are of home was her love of country. Inher- unanswered prayers laid up for us. Those iting the patriotism of her revolutionary were the days of tract distribution and ancestors, she ever maintained the liveliest your mother's district embraced the east interest in her country's welfare. She side of the river. We can imagine that, was also a person of strong religious feel- with the cares of her family, it was with ing. We find in her diary of May 23, 1823, self denial that she accomplished this the following: "I have to-day publicly work every month. Active in every good espoused the cause of Christ in baptism. work she helped to lay the foundation of Myself with two others were admitted to morality and pure religion in this commuthe Lord's supper. May God make both nity. We all knew of the years of patient, them and me instruments of doing much good, and burning and shining lights in no longer strength for active service, and the church." Thus at the age of 20 was who shall say that these were not the most this young woman received into the congregation of Christ's flock, and for many long years did she continue Christ's faithful soldier and servant, even unto her life's end. Upon removing to Ypsilanti, she with her husband united with the Presby terian church of this place, a weak little band, under the leadership of the Rev. I M. Weed, whose faithful ministry will never be forgotten in this community. During her connection with this church, her zeal for the Master was fully attested 39 years in the township of Ypsilanti, by her loving service in his cause. Al- where she died on Thursday, March 1 though home duties claimed a large part | Six children were born to them, four of of her time, church duties were not neglected. There may still remain some who were present when she died and at the will remember her, in the early days, as funeral. She was a loving wife, a ten-Sunday School teacher, tract distributer, der mother, a sympathizing neighbor, mber of the village choir and a constant attendant on the weekly prayer meet- Her funeral was largely attended. The ings and other church services. In 1848 she and her husband severed their connection with this church, and, during the rectorship of the Rev. J. A. Wilson were the 22d verse of the 16th chapter. Hymns confirmed in the Episcopal church. Al- appropriate to the occasion were rendered though during her early life a staunch by members of the choir of the M. E. Presbyterian, she soon became ardently attached to her new church home, and missed by all who knew her. for the remaining 39 years of her life,

was an earnest, devout Episcopalian. A long and useful life is ended. She has joined in the church triumphant, her beloved husband, by whose side she walked for 61 years. She was folded in a robe of creamy white, the seven mystical lilies on her breast, and the cross at her feet. The lines of age and suffering had passed away and all was rest and peace. The beautiful burial service was performed at St. Luke's church, by her rector, the Rev. T. W. MacLean, and she was borne to her last resting place in Highland Cem-

MY DEAR FRIEND: I know full well your loneliness and sor row, for these must come when the nearest and dearest of our friends are taken from

But I do not like to look at death from "this side." I love to look at it from "the last Tuesday morning, at Ann Arbor, where other side" and then we see it is not death

I love to remember your dear mother as I last saw her in her casket with the white robe folded so softly about her and the pure, white flowers upon her heart. How peaceful she looked! After all the burdens of a long life, her hands were folded in perfect rest. I doubt not her eyes, closed to the scenes of earth, were beholding Him whom her soul loved, and

we caught the reflection of His "peace." I love to think of her reunion with the dear ones of her own family and with the friends of long ago.

My thoughts have been busy with the past since she went away. I have recalled the early friends of my father and mother,

have come back to me the early days of the Bazarette in a few days. the church here, the Presbyterian church, of which your father and mother were then such active members. Not long since my pastor said, "Brother Weed's footprints are seen all through the country for sale by A. A. Graves. around." "Yes," replied another, "Not in your church alone but in mine also." It was a blessed testimony to the power of a consecrated life. But I have thought that with these footprints were blended others, those of a spiritual church, and, especially, a body of elders, of whom your father was one, who upheld the young pastor by their sympathy, their cooperation and their prayers. Their names will live in the hearts of his people. The last time I saw your mother, only a few weeks since, she spoke of those early days and her love for her pastor call on Mrs. P. W. Carpenter, south Washwith all the bright eathusiasm youth. Ington st.

FIFTY YEARS AGO.

YPSILANTI, MICHIGAN, THURSDAY, MARCH 8, 1888.

In the summer of 1840, being 17 years and back of that was a great marsh, now gathered Saturday evening, at the opera old and having taught a district school the filled up and built upon. There was a The type of piety was not superficial; it house, where Miss Julia Marlowe, the previous winter whereby I had a small great deal said in those days about the unwas deep heart work. With your mother's beautiful American actress, who has won amount of money I could call mine, I perardent nature and devotion to duty, her so many tributes from the metropolitan suaded my parents to let me accompany tion of this one of the guests, a humorous deep conviction of sin and joyful exper- press, presented her dainty impersonation an older brother and his brother-in-law fellow, inquired the way to a friend of who were coming to Michigan to visit rel- his a few miles out. The Landlord told Miss Marlowe's stage appearance is en- atives and look up some land of which him to go so many blocks and then turning gaging and wholly free from affectation. there was plenty for sale by the U.S. to the left keep the main traveled road government. My home was in Macedon, fourteen miles east of Rochester, N. Y., at ness, poise and womanly dignity, remark- which latter place we took passage on a canal boat for Buffalo. This was a common way of traveling at that time, the fare of her wedded life among the rocky hills sermon in the morning followed by the great dark eyes, is mobile, and, with a being two cents a mile, board and lodging of her native town. In 1833 her own Sabbath school. Almost immediately little longer practice will be wondrously included. The time made was fifty miles expressive. A New York paper said of a day. We could have taken a packet her: "She has a lively and incisive intel- boat which would have made 75 or perligence, a sufficient mobility and vigor of haps 100 miles a day but this would have The tenderness, the exquisite grace, the sleeping in one over night. We then were spirituelle quality of her impersonation, only passengers and I retired somewhat and the freedom from elocutionary rant, early while Mr. Mallory, my brother's have an irresistible charm. In the girlish brother-in-law, engaged in writing and and comedy parts of "Ingomar," she is sat up quite late. In the morning I noticed lelightful, but falls a trifle short-per- that I was lying on top of the quilt in my haps because of her youth—in the por- berth but thought nothing more of it trayal of passion. When, in her delight until Mr. Mallory asked me what I was t seeing her father, she runs off the stage | doing up in the night. I replied that I o meet him, she does so with almost child- was not up. He said "yes you were, you like abandon. As for love, we can readily got up and crawled down from your berth cribes love, and adds: "that's what my for a few seconds, eyes wide open, then nother says. I never felt it." In all the passed on towards the ladies' cabin and I asked you where you were going, and you nar as something to fondle and pet. Her said, 'in here,' and raising the curtain ove is a girl's love,-delicate and "calm stood inside a little while, and then turned

But to return to my trip, we arrived at Buffalo in two days and immediately egan to look about for a passage up the ake to Toledo. The fare for a cabin passage was \$8, and for a deck passage was \$3. The cabin passage included board and lodging, the deck a board berth and no board. We soon learned that there was a combination among the steamers in in regard to prices but that there was one steamer, the Star, had backed out of the combination and was running independently. Her cabin fare was \$3. Against her the combination had pitted the Gen. cott which was to carry at the same rates did likewise and "all was quiet on the Potomac." However we had our supper. lodging and breakfast and were ready for the next day. There was only draw-back, we dare not get out of sight of the boat he principal object being to listen to an About nine o'clock the next morning the kingdom, and touched the veil which address by Mr. J. M. Hall, Superintendent Star fired up again and so did the Scott, of the C. J. S. C. of Michigan. In spite and this time we left the harbor and soon The lake was a little rough but being out on deck where I could see all that was oing on it did not affect me any. I had an object and brought it to the earth. He boy's appetite in those days, and kept my eye on the steward and saw that we were to have green peas and roast mutton which were favorite dishes with me. When the dinner bell rang I was not long in responding. In those days the cabin was clear in the botom of the boat and here was where the table was set. As I entered the cabin I could smell the bilge water which was very offensive, but then I could also smell the green peas and roast close of his remarks he exhibited some mutton which, being very pleasant, counphotographs of Bay View, the seat of the teracted in some degree the unsavory smell

side of our troubles, and see how much greater our Weight of Glory is for having had these troubles. The earthly side looks dark and cold but the heavenly side is full of light and comfort. Liquor Sellers Must Respect the Law. It may be thought by some that the wet najority in the late election in this county began to have a new experience. First s an indication that the people are satisfied the opposite side of the table arose and to let the business of liquor selling go on s it has done in the past. Should there respondingly descended and then I involbe any of such mind, it is well that they untarily arose and paid my compliments should be advised to the contrary and that to the other side of the table, a kind of ight speedily. Many of our citizens voted politeness to which I was unaccustomed vet in the firm conviction that the evils of Suffice it to say that I could have stood the business can be better controlled by hese things very well but they were constringent tax laws, and are as much outaged at the deflant attitude of the liquor sellers as those who voted dry. In no mild erms have they expressed a determination grance of green peas. I was not alone in hat liquor sellers shall be law abiding this by any means, since most of the pascitizens, the same as other business men. sengers proved to be cowards by failing to and are willing to accept membership on a committee of citizens to see that they are them on them on that occasion. About made to respect the law and obey it. We Mr. Hall closed the exercises with a this time the Star wheeled about and peak whereof we know, and Ypsilanti can do no better thing than to appoint such a committee from our responsible and lawloving citizens, with instructions to apply vigorous measures to correct the wrongs done to society by the willful disregard of the wholesome regulations which the law mposes. Let a committee be appointed by all means. There should be no privileged class among us who are allowed to violate law and induce disorder in the ing and once or twice during the forenoor

It doesn't pay to break a contract. Robson and Crane were booked to play "The Henrietta" at Detroit last week. They canceled their engagement on the ground that New York paid them better; and last Tuesday the Union Square theatre burned with all their costumes and scenery. "The Detroit" is still doing business.

The ladies society of the M. E. church will hold a social at the residence of J. N. Wallace, Tuesday evening, March 13th. All are cordially invited.

Owing to the confusion in our office for two weeks, we forgot to mention the dissolution of partnership of Messrs. Barnum and Earl, a firm which, by attention to business and fair dealing, had gained the confidence and respect of the community to an unusual degree. Mr. Earl removes to Rodney, Mecosta Co., Mich. We are glad to an-At the Tuesday afternoon rehearsal of nounce that Mr. Barnum will continue glad to meet his customers both old and

The University meets with a great loss in the death of Prof. Byron W. Cheever, who died at Ann Arbor on the 6th inst., of typhoid fever. He was a graduate of the literay department in the class of 1859, and after graduating in Law and Medicine, New hair pins in the latest styles of entered the University as Professor in 1878. Anglo-Swiss condensed milk for sale night. Toledo was then a desolate and rubber boots, etc.—'Cause it's so wet in rhine stone, shell, amber etc., at the He was brother of Judge Cheever of Anna Arbor and H. M. Cheever of this city.

She—Your Honor, I leave that to the mercy of the court.—Buffalo Commer-Old gentleman (to grocer's clerk)-

Have you dog biscuit? (Clerk briskly) Yes, sir; all kinds, sir. Which do you like best, sir?-Life. Men slow to do you a favor are quick enough when they have favors to ask.

It is a way they have of making up time. - New Orleans Picayune. "She" is the name of a rich gold mine in Africa. It will be a difficult

matter for men miners to find the pockets in it. - Boston Courier. "I live for those who love me," says a Philadelphia poet. If he is like most amateur poets, then, he hasn't much

to live for .- Somerville Journal. Joseph never greatly fancied his coat of many colors, but it was his parti dress and it caught on with Miss Pharaoh.—New Orleans Picayune.

Flimsey-"I can't see how it is but the smallest specimens of men invariably get the best wives." Mrs. F. (archly) "O, you flatterer!"—Boston Transcript. Only about 7 per cent of the spirits

manufactured in this country is used in the arts. The balance in promoting sociability. - Martha's Vineyard Her-Georges I., II., III., and IV. of England showed the effects of their dissolute behavior in early life. They were Rex many years before they died.

In Volapuk a young lady is called a ji-pul. This name is quite graceful enough for the object if bustles are to remain in fashion .- New Haven

There is a young lady in a girls' sold of in Georgia who goes by the nick-name of "Postscript." Her real name is Adeline Moore. - Burlington Free

The medals owned by Bismarck weigh over forty pounds. He has, therefore, little reason to be jealous of the American prize-fighters. - Lincoln Journal.

In the theatre: "But why do you

weep? The acting is certainly not so touching." "Excuse me; I am bewailing the money I paid to come in."-Fliegende Blaetter. Some people are passionately fond

of doughnuts. Others never eat any part of a doughnut except the hole. Those people seldom have dyspepsia.— Somerville Journal. He that giveth to the poor lendeth to

the Lord; but the trouble with most people in this world is that they never make any loans except upon collateral.

If Shakspeare had only known about the Baconian cipher when he wrote his plays there can be no doubt but that he could have made them fit a great deal better than they do.—Lowell Citizen.

A new steel gun has been designed for our new steel navy. As the enemy approaches the muzzle his attention is attracted by a small sign, "Drop a nickel in the slot and see the gun go off"_Burdette.

The young man who will "hug himself," even when he is very happy, don't deserve to live in a country where there are 4,000 toborgan slides in full blast every day and evening.-Burlington Free Press.

A book agent tried to sell a Pittsburg woman a volume entitled .The Art of Speech" yesterday, but she cast such a withering look upon him that the wretch slunk away in shame. -Pittsburg Chronicle.

W'en it comes ter de test, it 'pear like de smooth an smilin' man doan hol' out ez well ez de man dat ain't got sich er bright face. De crab-apple makes better eider den de sweet apple do. - Arkansaw Traveler.

Small boy (near open window of restaurant)—Jest smell dat soup, Jimmy. Hain't dat fine? Jimmy (holding his nose)—I ain't smellin' no soup terday, it 'ud spile my appetite fer de roas' chicking.-Life.

Old lady (to small boy who is smoking)-Don't you know that smoking isn't good for little boys? Little boy-Yes'm. Dis stub (puff) was makin' my little brubber sick (puff), and I took it from him.—New York Sun.

Professor-"Perpetual motion, in the accepted sense of the term, is impossible. Can you think of a piece of machinery that operates without an impelling force?" "Yes, sir." "What impelling force?" "A gas-meter."—Lincoln Journal.

Rochester has an organization "The Woman's Ignorance Club," and most of the women in town belong to it. Any woman who stops a car on the wrong side of the crossing is considered a candidate. - Detroit

"Clara," said the old man from the head of the stairs, "hasn't that young man gone yet?" "Your daughter isn't here, sir," feebly responded the young man. "She has just stepped into the kitchen to fill and trim a lamp. New York Sun.

Mr. Agile (to Mr. Stoutman, after a hard run for a horse-car)-"By jove! old boy, I thought you were too to run like that. Mr. Stoutman (languidly)-"Easily explained, my dear boy, laziness runs in our family. Detroit Free Press.

It seems strange that in the many schemes introduced by statesmen to get rid of the surplus no one has ever suggested that the government start a daily paper to fill a long felt want. We presume, however, they want to be at least six weeks, in spending the

money.—Burdette. It has been said that "the receiver is as bad as the thief." There are exceptions to this sweeping assertion. A railroad receiver may be a very good sort of fellow, and one willing to give the earnings of the road to the directors instead of wasting it on stockholders."-New Orleans Picayune.

nine as our modern wines, he would not have prescribed any.

But Timothy, not strong physically, is encouraged spiritually by the recital of grandmotherly excellence Paul hinting to him, as I hint this day to you, that God sometimes gathers up as in a reservoir away back of the active generations of to-day a godly influence, and then in response to prayer lets down the power upon children and grandchildren and great-grandchildren. The world is wofully in want of a table of statistics in regard to what is the protractedness and immensity of influence of one good woman in the church and world. We have accounts of how much evil has been wrought by Margaret, the mother of criminals, who lived near a hundred years ago, and of how many hundreds of criminals her descendants furnished for the pententiary and the gallows, and how many hundreds of thousands of dollars they cost this country in their arraignment and prison support, as well as in property they burglarized or destroyed. But will not someone come out with brain comprehensive enough and heart warm enough and pen keen enough to give us the facts in regard to some good woman of a hundred years ago, and let us know how many Christian men and women, and reformers and useful people have been found among her descendants, and how many know how many Christian men and wolled, and reformers and useful people have been found among her descendants, and how many asylums and colleges and churches they built, and how many millions of dollars they contributed for humanitarian and Christian

ontributed for humanitatian and offiscation purposes?

The good women whose tombstones were planted in the eighteenth century are more alive for good in the nineteenth century than they were before, as the good women of this nineteenth century, will be more alive for good in the twentieth century than now. Mark you, I have no idea that the grandmothers were any better than their granddaughters. You can not get very old people to talk much of how things were when they were boys and girls. They have a reticence a fnon-committalism which makes me think they feel themselves to be the custodians of the reputation of their early comrades. While they feel themselves to be the custodials of the reputation of their early comrades. While our dear old folks are rehearsing the follies of the present, if you put them on the witness-stand and cross-examine them as to how things were seventy years ago the silence be-

stand and cross-examine them as to how things were seventy years ago the silence becomes oppressive.

—Baltimore American.

There is a question about the validity of a marriage by telephone, but we should think any level-headed Judge would decide that it is a "sound" proposal.—Norristown Herald.

City cousin—Is coasting good up your way, Hattie? Country cousin—O, elegant! The hills are so steep that the boys have to hold their partners on the sleds—New Haven News.

A New York boy whose father was sent to penitentiary last week, stated in court that he had never heard of God. There is the making of an Alderman in that boy.—Washington Critic.

If Shakspeare had only known about

Stand and cross-examine them as lender were seventy years ago the silence becomes oppressive.

A celebrated Frenchman by the name of Volney visited this country in 1796, and he says of woman's diet in those times: "If a mother express doubt about some statement of the holy bible in a child's presence, long after the gates of another express doubt about some statement of the holy bible in a child's presence, long after the gates of another express doubt about some statement of the holy bible in a child's presence, long after the gates of another express doubt about some statement of the holy bible in a child's presence, long after the gates of this historical era have closed and the gates of another express doubt about some statement of the holy bible in a child's presence, long after the gates of another express doubt about some statement of the holy bible in a child's presence, long after the gates of another express doubt about some statement of the holy bible in a child's presence, long after the gates of another express doubt about some statement of the holy bible in a child's presence, long after the gates of this historical era have closed and the gates of the says of woman's healths of more rea have closed and the gates of the says of woman's healths of more relications of modern society and how woman's health goes down under it, b mencement of the Present Century," and he says of the women of those times. "At the age of 30 all their charms have disappeared." One glance at the portraits of the women a hundred years ago and their style of dress makes us wonder how they ever got their breath, All this makes me think that the express rail train is no more an improvement on the old canal boat or the telegraph no more an improvement on the old-time saddlebags, than the women of our day are an improvement on the women of our day are an improvement on the women of our day are an improvement on the women of the last century.

But, still, notwithstanding that those times were so much worse than ours, there was a glorious race of godly women, seventy and a hundred years ago, who held the world bed from the differential that the says of the winters, there may be standing, as a result of those trundle-bed grayson, thundering Whitefields, weeping reformers, circulating summerfields, weeping r large, than the women of one of the second presentative, why souther that the property of the the visitation of God on families, says nothing about the second generation, but entirely skips the second and speaks of the third and fourth generation: "Visiting the iniquities of the fathers upon the third and fourth generations of them that hate me." Parental influence, right and wrong, may jump over a generation, but it will come down further on as sure as you sit there and I stand here.

TALMAGE TO WOMEN.

The Race of Godly Women Seventy or a Hundred Years Ago.

Blossed in the Home that Contains an Only-previous formation of the Home that Contains and Oh, my! how you will miss her when she is gone. I would give the house from over my head to see mother. I have so many things I would like to tell her, things that have happened in the twenty-four years since she went away. Morning, noon, and night let us thank God for the good influences that have come down from good mothers all the way back. Timothy, don't forget your mother Eunice, and don't forget your grandmother Lois. And hand down to others this patrimony of blessing. Pass' along the cornets. Make religion an heirloom from generation to generation. Mothers of America, consecrate yourselves to God and you will help consecrate all the ages following! Do not dwell so much on your hardships that you miss your chance of wielding an influence that shall look down upon you from the towers of an endless future. I know Martin Luther was right when he consoled his wife over the death of their daughter by saying: 'Don't take on so, wife; remember that this is a hard world for girls." Yes, I go further and say: It is a hard world for men. But for all women and men who trust their bodies and souls in the hand of to descend and sweep the hem of that robe across the granite, and when by that attrition the column is worn away, they say time will end. But by that process that granite column would be worn out of existence before mother's influence will begin to give If a mother tell a child if he is not good some bugaboo will come and catch him, the fear excited may make the child a coward, and the fact that he finds that there is no bugaboo may make him a liar, and the echo of that false alarm may be heard after fifteen generations have been born and have expired. If a mother promise a child a reward for good behavior, and, after the good behavior, forgets to give the reward, the cheat may crop out in some faithlessness half a thousand years further on. If a mother culture a child's vanity and eulogize his curls and extol the night-black or sky-blue or nut-brown of the child's eyes, and call out in his presence the admiration of spectators, pride and arrogance may be prolonged after half a doz-Aye, I go further and say: It is a hard world for men. But for all women and men who trust their bodies and souls in the hand of Christ the shining gates will soon swing open. Don't you see the sickly pallor on the sky? That is the pallor on the cold cheek of the dying night. Don't you see the brightening of the clouds? That is the flush on the warm forehead of the morning. Cheer my, you are coming within sight of the celes-

ek around which our world once swung

hall discover not so much as a cinder of the burned-down and swept-off planet? In Cey-on there is a granite column thirty-six square

eet in size, which is thought by the natives o decide the world's continuance. An angel with robe spun from zephyrs is once a century

There's a heap of talk just now about sheep and wool and tariff or no tariff, and meanwhile the milkman is pumping in the water, the grocer putting the bad fruit at the bottom of the measure, and the number of adulterations in tea and coffee increasing every week. - Detroit Free Press.

It is said that a young woman in Kansas City has lost her mind as a result of listening to Sam Jones' preaching. It looks as if Sam were yet going to accomplish something in that city. If he can manage to make the people there lose their minds he will, even if he doesn't save their souls, improve them a little for this life .-Chicago Times.

Twenty Years in Bed.

A gentleman resides in Cleveland who is afflicted with a heart disease which is probably the most remarkable in the annals of medical history. Dr. J. G. Smith, a prominent physician, has for twenty years been compelled to retain a recumbent position. His case has attracted much attention in medical circles, both in this country and in Europe.

Thirty years ago Dr. Smith was an active practitioner in Cleveland. About that time he was prostrated by overwork, and in 1867 he was taken to his bed with a peculiar trouble of the heart. Since then he has never been on his feet or for any length of time sat in an upright position. His trouble lies in a peculiarity of the valves of the heart, which refuse to act when he is in an upright position, but which organ performs its functions perfectly when he is recumbent.

Though for the best part of his life confined to his bed, Dr. Smith has wonderfully improved his time, devoting himself to literary work, mastering foreign languages and perfecting several inventions, which latter have proved sources of large incomes to himself and his associates in

their manufacture. Dr. Smith is a large and robust-appearing man, and, aside from the peculiar action of the heart, is in perfect health. He occupies the remarkable position of being able to commit suicide by simply standing upright. -Pittsburg Chronicle.

Beginning a New Life. "My beloved brethren," said a western minister, "It fills my heart with joy to inform you that the mayor of our little city has experienced a change of heart, and hereafter will labor with us in advancing our great and glorious cause." Murmurs of approval among the con-

gregation. "And as a mark of the respect and

Tailor gowns for early spring wear esteem we hold for him, and the high are being made up of delicate tinted confidence we repose in our new brothlight-weight cloths, and have the bo- er, the taking up of the collection will be intrusted to his care on this blessed Sabbath morn."-New York Sun.

Not a Scab.

"Please, sir, give me a dime to get something to eat," whined a sturdy beggar to T. Goldsborough Bruff, this

"Tell you what I'll do." said Bruff. 'All the waiters in the restaurant where I eat have struck. Now, you come in and wait on me, and I'll get you a job or give you a quarter,"

"I'm no scab," said the beggar, indignantly, as he moved away. "You rich dudes are always trying to grind down the poor."-San Francisco Post.

E. ST. JOHN,

The Emperor William.

A newspaper man's reminiscences of majesty have been given to the world under the title, "Monarchs I Have Met," by W. Beatty-Kingston. Here The tonsorial artist who colors is a bit about the Emperor William from the book:

"He really loves soldiering. Most men become ardently attached to any science with which they are profoundly acquainted, and the king has studied natters military until, in that branch of knowledge, there remains nothing for him to learn. He is so thoroughly imbued with the feeling that he is, avant tout, a soldier, that of a morning, when he is sitting in his pleasant corner room under the lindens, with his uniform coat thrown open, read-Actors should never jeer at the stage | ing, or talking to one of his ministers of a pioneer theater. There are no he will, hearing the band of one of the guard's regiments playing as the soldiers are marching by his place, always turn hastily to the window to look at the men; never forgetting, however, to button his tunic up to the throat and pull out the cross of the 'Ordre pour le Merite,' always hanging round his neck, so that his troops may see him parfaitement de rigueur.

Some years ago one of his favorite generals was conversing with his majesty when the sounds of drums and fifes afar off signaled the approach of grand guards, whereupon the king rose hastily from his chair, went through the rapid act above alluded to, and walked to his study window. Gen. Von Z—— plucked up his courage, and asked his majesty why he was There was a difficulty between two so particular about this matter, add-New York clubs the other day. Two ling: 'The guards, sire, see you every day, and I should hardly have thought policemen had a fight.—Martha's Vine-yard Herald.

A Nautical Paradox—Whatever is accomplished by the lifeboat is thwarted replied William I. 'As the head of

the army I am bound to show my soldiers an irreproachable emample in the terrie. They have never seen me with my coat unbuttoned, and I do not intend that they ever shall. For let me tell you that it is the one button left unbuttoned that is the ruin of the

Branch county, has been stricken with paral-

-A shingle mill near Bellivere, owned by

Henry Blair, was destroyed by fire. Loss, \$2,100; insured for \$900. -E. A. Bockhart, of Niles, shot himself in an alley at South Bend, Ind., and, if he re-

covers, will lose his sight. -Charles Woods, a widower, aged 41 years, was arrested at Alma, for attempting to assault his daughter, aged 13.

-George Brannon, of Cheshire, Allegan county, who was General Grant's orderly for a time, is trying to get a pension, but has so

-Typhoid fever, which has prevailed at the State Industrial Home for Girls at Adrian, is abating. There have been twelve cases, three fatal.

Mary A. Howard, cook at the Olivet College, was brought to the home of friends at Adrian, suffering from dementia, attributed to overwork. -The boiler in Levi Newell's saw-mill at

Morenci exploded, killing the engineer, William Smith, and injuring the proprietor and two employes. -Rev. J. Hill, of Ithaca, is sixty-five years old, has been married over forty years, and

in that time has not paid out \$10 for medical services in his family. Mrs. Frost, of Muskegon, who mysterious-

ly disappeared from a Milwaukee hotel a week ago, has been found at Mequon, Wis., in the home of relatives. -Grace Church, at Holland, was burned in 1886, and the society is hard pushed. The

life or death of the parish depends on present efforts being made to sustain it.

-It is proposed to build a canal between Big Bay De Noc, in Lake Michigan, to South Bay, in Lake Superior, a distance of forty miles, at an estimate cost of \$5,000,000.

—The asylum at Ionia ror insane criminals is so badly crowded that no more persons can be admitted. The next Legislature will probably be asked to build another asylum. In the suit of Patterson against the Cineinnati, Jackson & Mackinac road, for injuries sustained last April, a Circuit Court jury at Adrian, gave the plaintiff verdict for

He will go at once. Charles Wingard and his niece, Annie their sister resulted in an acquittal.

Fox, elopers from Monroe, committed sui. cide Wednesday morning in the jail at Alliance, Ohio, with a revolver. Both were dead when found.

-Annette Miller, sent from Macomb county, died at the State Industrial Home for Girls, being the fifth victim of typhoid fever within a short time. There are twelve cases still reported there.

The mangled remains of Michael Scully, a Chicago and Grand Trunk fireman, were found beside the track in Battle Creek, fragments of the body being strewn along the track for twenty rods. -A bulletin has been issued by the Mich-

igan State Board of Health reciting the prevalence of small-pox in many portions of the country, and advising the peple to protect themselves by vaccination. Mrs. John Elder put kerosene in a coal

stove, which, to all appearances, contained no fire, and before she could apply a match a terrible explosion occurred. Mrs. Elder was badly burned about the face and neck. Zach T. Darrow was arrested at Detroit, for trying to pass counterfeit money. The bill he was trying to pass was an excellent imitation of the five-dollar silver certificate, series B., number 127,336, bearing a vignet

-It has been found that Kaiser, who was assaulted and robbed in Detroit, and found unconscious in Jackson, did not go to the latter place in a box-car. It is hardly expected that he can recover, and much mystery surrounds the case.

-At an early hour in the morning Carrie and Eva Deitz, the Sebawaing girls confined in the county jail for burglary, made a bold attempt to escape. They removed the iron grates from their window and threw out a rope made from a torn blanket. Carrie made the first attempt to lower herself, when the rope broke. She fell about two stories, and received fatal injuries, dying at 7:30 o'clock

-Who would think of calling deaf men by beating a drum? Yet this is exactly what is done in the Institute for the Deaf and Dumb at Flint. With the drum resting on the floor and beaten in the usual way, everybody in the building is awakened in the morning. It is also used to call the boys from the play-grounds. The teachers state that those who cannot hear at all feel the vibrations and an swer the summons.

Albert Spencer Brandt and his step-daughter, Eunice Parker, aged fourteen, have been arrested at Grand Rapids, the former for counterfeiting and the latter for passing bogus money. The girl was arrested, and when Brandt went to the police station to look for her he was arrested and taken home. His house was found to contain dyes, tools, and all the things commonly used in making counterfeit coins. He made very clever counterfeits and is an expert at the business.

INDIANA.

ance in the woods east of Hollandsburg. having been seen by a farmer. Much excitement prevails.

A severe rain and wind storm damaged operty to an extent not definitely reported at Haubstadt, unroofing houses and barns and killing cattle. -A bomb-shell was thrown into the camp

of the gambling element at Logansport by the police authorities issuing a general order closing all gambling rooms in the city. John M. Harper and his wife both died, after five days illness, of pneumonia, at their home ten miles southwest of Brazil, where

In a row between miners at Carbon, City Marshal Thomas Fitzgerald shot and killed an Austrian named John Yasageco. The narshall was compelled to use his revolver

A package of \$140 was left with George . Hubbell, night clerk of the Commercial House, at Fort Wayne, by one of the guests, nd Hubbell and the money both disappeared, and have not been seen. Russell Armstrong was arrested at Indianapolis, on complaint of a hotel-keeper, whose

ill had not been paid. Armstrong was taken to the station, where he suddenly drew a revolver and shot himself, inflicting fatal in-Suit for \$10,000 damages for the killing of

--Miss Nina Van Zandt, or Mrs. August | Engineer William B. Felton, by the ditch-Epies, as the case may be, is the guest of the family of Carl Zwanzig, editor of a German since, will be filed against the Evansville and Indianapolis road, at the next term of Circuit Court.

The evidence before the Coroner, does not seem to sustain the first report of justifiable J. H. Beidler, of Mount Pulaski, sent homicide in the killing of the Austrian min-Carbon, the verdict being that the deceased came to his death at the hands of the latter. The Kokomo Board of Trade has closed

contracts with two factories for Kokomo. Lincoln while in Mount Pulaski many years | One is for the manufacture of glass bottles, o.

The historical tabernacle building, which fruit jars, etc., and will employ about eighty men. The other is a wood pulp mill, and was built during the temperance excitement | will employ one hundred and twenty-five

-The little son and daughter of James cause, was sold for \$15,000. It is to be con- Hustons, who lives near Elwood, while playverted into an undertaking establishment ing about the house found a bottle of tincture of belladonna, which had been carelessly the tabernacle has been used as a place of lett on the window, and drank enough of it amusement, but it has proven an unprofitable to throw them into violent spasms. The boy, aged 4, died soon after, but the little girl, aged 6, is thought to be out of danger.

-Mrs. Mary Harrod, who was confined in -Ex-Sheriff John Whitcomb, of Batavia, by hanging herself with a towel. She had been placed in the jail on a charge of petit larcency. She said her husband was now in Columbus, O., and claimed that Judge John Norris, of Columbus, was her brother, and that she had a brother in Indianapolis.

-Dr. W. B. Bedell, a prominent physician who has held several positions of trust, sud-denly disappeared. He has been paying considerable attention to a neighbor's wife, and finally his actions became so noticed that they occasioned some talk. Five or six weeks ago Mrs. Bedell died suddenly under circumstances which are now regarded with suspicion. To-day the Prosecuting Attorney and Coroner telegraphed for J. N. Hurdy, an Indianapolis chemist, who will make an examination of Mrs. Bedell's body.

-Wesley Adams, living just outside the city limits of Kokomo, was shot dead by Charles Rusk, a farm hand boarding at Adams' house. Rusk was quarreling at the Mrs. Adams when Mr. Adams interfered and was shot in the neck, death resulting instantly. Rusk who is only 17 years old, fled, out was arrested in the woods seven miles northwest and brought here to jail. He refuses to talk and pleads self-defense. He is cousin of the murdered man's wife and has a bad record.

-Southern Indiana, which is noted for its remarkable revivals of religion, is now enoying one of the most extensive in its history. It is confined to the territory contiguous to the Ohio Falls, the cities of New Albany and Jeffersonville, and is the direct result of the efforts of young Thomas E. Murphy, the temperance apostle, and Dwight L. Moody. Over 5,000 people have signed the temperperance pledge, and Reuben Daily, the "Pagan" editor, who formerly refused to honor the name of the Deity with a capital letter, has been converted.

Charles and Samuel Kissinger filed two suits at Logansport, of \$5,000 each against Dr. M. A. Jordan, Coroner, for damages alleged to have been sustained by an alleged false imprisonment. In December, 1886, Ella Kissinger, their sister, was arrested on the charge of murdering her infant. The plaintiffs in this action were also arrested for complicity in the crime, but were subsequently discharged. They allege in their complaints -The First Presbyterian Church of Niles | that the mittimus issued by the Coroner upon has extended a call to the Rev. J. G. Lowrie, which they were imprisoned was without authority of law and moreover that they were Eirst Presbyterian Church of Elkhart, Ind.

He will go at once nied a preliminary hearing. The trial of

The Yankee Skipper and the Fundy Tides.

It seems, according to the old storytellers, that years ago the captain of a New England coaster determined to discover the exact location of "Down East." At every port he visited, from Cape Cod to Boothbay, the inhabitants all denied that they lived there, and, when asked where "Down East" was, only pointed mysteriously up the coast, Finally, when the skipper of the "Dancing Polly" received a cargo of goods for Grand Pre, he was highly pleased, thinking that at last "Down East" would be found, -for, in those days, Nova Scotia was considered "the jnmp-

ing-off place." One fine morning, the schooner got under way, and sailed merrily up through the maze of islands that skirt the coast of Maine. Fair westerly winds favored them, and on the second day they entered the famous Bay of Fundy, or Fond de la Baie, as the French call it.

The skipper had never heard of the great tide there; and when, the following morning, the mouth of the Minas Channel appeared on the right shore, and he was soon under the Acadian hills.

The rich green fields and the villages alongshore seemed to give a friendly greeting; and captain and crew decided that "Down East" was a very pleasant region.

But luck is fickle; and as they were bowling along, up the basin proper, they felt a sudden jar, then heard a scraping sound; and a moment later "The Dancing Polly" was aground, under full sail.

The small-boat was put out with a kedge, and the sails were braced this way and that, but all to no purpose,the boat was aground hard and fast, the tide was going out, and skipper and and "crew" would have to wait until the high tide came to float them off. It was quite late in the day, and ere long the captain, and the cook, the and-black cat, who constituted the "crew" all went to bed.

Early the next morning, the captain was awakened by the dog; and when he -A huge black bear has made his appear- erawled out of his berth, he found the floor of his cabin so aslant that he had to scramble on all fours to reach the ladder. The schooner was evidently heeled over. But the captain had expected this, and made his way as best he could.

Was he dreaming? He certainly touched the yellow-and-black cat's tail. An answering wail assured him that he was awake, and that he and "The they had spent their fifty years of married Dancing Polly" were really somewhere high up in mid-air

The bewildered skipper crept to the rail, his astonishment all the while increasing. The broad stream of the of water was in sight, but far below her cousin: him could be seen a vast basin of mud, in which pigs were rooting and grunt-

For some time the skipper stood and looked; then, noticing the cook standing by and, like himself, lost in wonder, he said: "Wal, John, I reckon we've reached

"Reached where?" exclaimed the

'Down East," replied the old man, solemnly.

"It looks more like 'un East,' and on a powerful high perch, moreover," retorted the cook, "and I'm for striking inshore." The two men started forward, and they soon found that the schooner was

resting on a great ledge of rock like a coal.—Ex. tower that rose out of the mud. Lowering a rope over the side, they let themselves down upon the rock, and even then were several feet from the muddy The great pedestal upon which they stood was covered with olive-hued and black weeds, which concealed innum-

erable star-fishes, sea-urchins and shells, and it gradually dawned upon them that "The Dancing Polly" had not been transported inland, but that the water had gone seaward and left How to get down was the next question, and after a debate about leaving the dog and the cat, the two men fin-

ally managed to slide, slip, and scramble to the plain below, and through mud waist-deep floundered to the shore, where they were received with roars of laughter by a group of fine looking Acadians, who had been watching their decent and their difficult progress. Then and there, the Yankee naviga-

tor first heard of the Fundy tides; and several hours later, from the deck of the little craft, he saw the "bore" come in;-first a small stream, growing rapidly wider and deeper until the entire basin was filled with surging waters that rose higher and higher, until finally "The Dancing Polly" floated free, and once more sailed away in the direction of Grand Pre. - C. F. Holder, in St. Nicholas.

If He Had Only Known.

A physician who had attended a man during several weeks of illness called one day and presented his "I can't pay this," said the ex-

patient. "Why? It's correct." "I don't doubt that, but I havent any money. Had to pay a life-insur-

ance assessment this morning, and it took every cent I had." "What, is your life insured?" "Yes; and at one time, when I expected to live but a few hours longer, I told my wife to see that you were paid just as soon as the company paid

the amount of insurance." "My dear man," the doctor suggestively replied, "I wish I had known that. I think I would have gotten my money."-Arkansaw Traveler.

ST. NICHOLAS HOTEL, GAINESVILLE, FLA., March 1, 1888.

MR. EDITOR. Dear Sir: - I promised you when we left for the South I would write you a letter after we found where we wanted to stav for a few weeks. After spending some ten days at four or five points, we came to this pretty little city, which is located equally distant from the Atlantic Ocean on the east side, and the Gulf of Mexico on the west side, thereby affording protection from chilly winds of the Coast as well as the wintry Northern blasts. I cannot understand why people will seek the Coast towns, when after pleasure and comfort. The "season" at this place will last long into May, and many Northern tourists can be found here after the other resorts have been vacated. Mr. W. T. Jackson, the proprietor of the St. Nicholas, the best house here, has done much to make our stay in this beautiful little city among the pines, pleasant. The St. Nicholas is a new brick hotel, well furnished. Rooms large and comfortable, and everything presents that inviting Southern hospitable appearance which is found where cotton grows. The table is supplied with Northern meats, and fish and game he bore away for it, wing and wing, from the beautiful lakes and hunting grounds that abound near here. You ought to see us come home with a big "string" of fish.

Well, good-bye, "Old Chap," for this time. Will be home last of May. Yours, JACK.

Mr. Moody Makes a Mistake. A friend of mine, who is a strict temperance man and never drinks the first scholarship for the aid of woliquor under any circumstances, has men students. The interest of \$6,000 liquor under any circumstances, has the misfortune to be occasionally afflicted with erysipelas of the face candidate from New York State who which makes his nose a trifle too ru- shall pass the best yearly examinabicund for perfect beauty. He went tion. to the Moody meeting the other evening, and becoming interested stepped into the inquiry room. A Christian worker stepped up and accosted him with

"My dear brother, what is your besetting sin?" Then catching a glimpse of the rosy nose he added: It's intemperance, I dare say?"

My prohibitionist friend was so great Newfoundland dog, and a yellow- speechless with indignation that he turned and walked out .- Louisville

Better Than Delmonico's.

A very pretty story which we be-lieve has never yet appeared in print. is told of a young lady of Coldwater, Mich. She was visiting her well-to-do cousin in New York City, who took pleasure in showing her the sights of Gotham. After theater one evening he thought to show his Western "coz" how they dine in New York "after the thought so; and then, having some opera is over," and took her to Deldoubts, he reached over and gently monico's, where he ordered a neat little supper for two.

The viands were dispatched, and the waiter brought the check, with which was returned to the cashier a \$20 bill. The young lady"from out of the West" was watching operations, and observed that the waiter brought back but \$3.50 in change, of which he was given the half dollar. Afterward seated in the carriage en route homeward, the day before had vanished. Not a drop Western belle timidly ventured to ask Excuse me, cousin, I don't want to

that. I saw you go into that Mrs. appear inquisitive, but you know we Stuckup's kitchen half an hour ago and you've been there ever since." that a \$20 bill you sent with that check?"

"Yes," was the reply. "And you only got back three dol-lars and fifty cents?"

"Well, I declare! it may be right, but at the Southern Michigan Hotel in Coldwater I can get just as good a dinner as that for 50 cents with two kinds of pie."-Hotel World.

THURSDAN, MARCH 8, 1888.

the Union soldiers. A good many down | ing table: south got tired of the same thing long ago, but there is not cotton enough in the south to stop their ears to the unwelcome sound.

THERE is music in the air at Albany. Gov. Hill's musical clock and 800-dollar piano furnish the instrumental part of the performance, and the legislature promise a real lively accompaniment in the shape of an inquiry as to the Goveronor's misappropriation of the state

Shoppy on the free list notwithstanding the Sentinel's spasms over the iniquity of its use under a duty of 10 cents per pound. With free shoddy, who will not necessarily be clothed in cast off English rags?

THE flounderings of the Coldwater Republican are really pitiful. In one line it argues the higher price of free wool, and in the next, the necessity of cheaper raw materials to enable our manufacturers to compete abroad. Shade of Whateley! thy logic should put in for repairs.

Did we hear any body say that the Ann Arbor Democrat and the Coldwater Republican were investing all their surplus in sheep and thus proving the sincerity of their claims that free wool always bears a higher price than protected wool? Walk up gentlemen and prove your faith by your works.

THE true inwardness of Secretary

Bayard's diplomatic "triumph," is beginning to appear. On May 20, 1886, after the seizure of our fishing vessels by the Canadian authorities, Mr. Bayard wrote to Minister West protesting vigorously against the illegal acts. This is what he wrote: "The report received by me yesterday alleges such action in relation to the vessel mentioned as renders it difficult to imagine it to be that orderly proceeding and due process of law so well known and customarily exercised in Great Britain, and which dignifies the two governments and gives to private rights of property and the liberty of the individual, their essential safeguards." On September 11, 1886, he wrote in regard to the Adams and several other vessels that "the conduct of the provincial officers towards these vessels, therefore, seem not merely unfriendly and injurious, but in clear and plain violation of the terms of the treaty, and I am instructed that reparation for the losses sustained by the owners of the vessels will be claimed by the United States government on their behalf, as soon as the amount can be accurately ascertained.' These last are brave and patriotic words and gave the country hope that at last our government had awoke from their dream of subserviency to England, and would vindicate the rights of our fishermen. But alas! The final surrender has been made and Sec'y Bayard has signed the terms of capitulation. It is a treaty without one single concession on the part of Canada, except what is freely granted without law or treaty, by every civilized nation on the globe, to other nations, but with an exclusion of our vessels from vast areas hitherto claimed, and used by our fishermem, and last and worst an implied acknowledgement of the right of Canada to seize and confiscate our vessels. This appears from a recent communication received by Secretary Bayard from the Admiralty Court of Halifax that the libels against the Daniel Adams and Ella M. Doughty have been dismissed because Canada's right to seize them has been vindicated by the treaty which Mr. Bayard has signed Comment is not necessary on so clear a surrender of the rights and dignity of the

great nation whom he misrepresents.

Mr. Mills, Chairman of the Committee

of Ways and Means, who lives at some cross roads in that highly civilized progressive state called Texas, has finally offered his panacea for all the ills the United States is heir to. Under the head of tariff reform he slaps the farmers in the face and tells them to get down to the plane of the Argentine Republic where sheep are worth 50 cents per head, or else slaughter their sheep and stop growing wool. Not satisfied with putting his heel on the neck of our farmers, he makes a thrust at the manufactures and insists that they shall force their expenses down to the European standard or close up shop. It is really hard to tell against whom his spite is most bitterly vented. The blow upon the farmers is in the interest of cheap raw materials, and this can benefit only the manufactures, those "great monopolies," whose crying sins have so long excited the righteous indignation of these same tariff reformers. It looks as if they had become alarmed at what they had done—they are easily alarmed, be it known -and have sought to remedy the blunder by attacking the manufacturing industries. And what does it all amount to? Where will the blow fall with most telling effect? Upon the laborer of course. Ultimately he must suffer in his wages. If the value of wool is reduced, the cost of production must be reduced likewise and that can be done only by forcing wages to a lower level. So with manufactured products. Give the manufacturer his raw material and all his appliances as cheap as in the foreign market, and it will give him an equal chance with Europe only when labor is put up on the same plane, and that is the inevitable result of the free trade idea. Free trade has no other object than to force home manufacturers into competition with the foreign, and such competition cannot succeed with a mised: single element of cost, labor for instance, of higher price. Raw material, machinery and labor must all be of equal value with those of European supply, or our industries must go to the wall. Is it possible that American laborers are so densely ignorant or stupid as not to see where this bold stroke of destructive "reform" must land them? We think not. All classes are studying the tariff question and the examination takes place early next November. Let Mr. Mills and his dark lantern committee take warning.

Senator Vest is tired of hearing about local option now, is shown in the follow-

5th ward	. 33.33	24.03
	52.53	50.1

It will be seen that the 1st and 6th wards f Ann Arbor, the 2d and 4th wards of Ypsilanti, and the towns of Bridgewater, Pittsfield and Salem alone increased their proportion of prohibition votes—the 6th ward of Ann Arbor making the highest relative gain, and the 2d ward of Ypsilanti coming next. The influence of the University and the Normal School is seen in hose. What schools are they which influence the 2d ward of Ann Arbor and the owns of Freedom and Lodi! Lyndon, Scio, Saline, Lima, Lodi, Sharon and Northfield show the greatest losses, and in that order. Manchester lacked only one hundredth of one per cent. of maintaining ner ratio. In noting the varying gains and osses, it is surprising, and interesting, to find how many of the precincts maintain their relative rank, or nearly so, as shown in the following comparison:

Ten keep the same rank, and five, in cluding the county, lack but one of it; while four lack two of it, and fifteen have vandered farther The total vote in the county was 94.16

per cent. of the amendment vote. NATIONAL ANTI-SALOON REPUB-LICAN COMMITTEE.

RINGING CALL FROM THE NATIONAL

COMMITTEE. Less than eighteen months ago the anti-

arty was organized, at the national conference, held at Chicago, September 16th, 1886. That conference was a gathering of oval, life-long and representative repubicans, who believed that, in the provilence of God, the hour had come for the republican party to face unitedly its next great duty, and to enter unitedly upon its next great battle and victory. They remembered its heroic origin, for many of them had stood by its cradle. They were proud of its hitherto continuous line of splendid achievements, and believed that that line could be, and ought to be, kept unbroken. They knew that a political party, called together and held togeter by moral ideas, must move ever forward, or cease to exist. With the civil war triumphantly ended; with slavery uprooted; with the Union forever restored; with the Nation's honor and credit everywhere vindicated, and the Nation's defenders fitly rewarded: with American industry butressed by wise laws, and started on a course of unexampled prosperity; with a sweeping reform in the civil service inaugurated; the field seemed clear, and the ime ripe for another advance, which should be the greatest of them all.

During the two decades embracing the anti-slavery agitation, the war period and reconstruction, while the hands and thoughts of our people were busy with other imperative tasks, the national scourge of the liquor traffic had grown with the Republic's growth, and strengthened with its strengh. Adroitly it had intrenched itself in both political camps. Holding the democratic party as its open ally and aggressive champion, it hoped to secure the perpetual neutrality of the republican rganization by seducing the least worthy of its political managers with the bait of power, or coercing them with the whip of ntimidation. Too long this policy succeeded. Too I ng the cowardice, self-interest or apat y of false leaders rendered oiceless and ineffective the always earnest, and now resistless temperance sentiment among the republican masses. The anti-saloon uprising within the republican party, which took form at Chicago, broke the evil spell, and marked the beginning of the end of saloon domination in republican councils.

The ground which that conference of republicans asked the republican party to take on the liquor question is thus sur-

(1) The saloon is the enemy of society. and ought to be suppressed; (2) the people of each state and municipality ought to have the opportunity, whenever desired, of deciding when and how this shall be done; (3) until destroyed, the saloon ought to be crippled by every restraint and disa- sive use the open ocean. It was Chambility which local public sentiment will berlain's oversight no doubt, for there was than any one else. enforce, and made to reimburse as much nothing in the attitude of the United

as possible of the public loss it causes.

ote bears to the total vote cast, in each the republican party where it belongstown, ward and city, and in the county, positively and finally on the side of the doubt, be considered a just offset. on the amendment last spring and under home and the public safety, as against the saloon system and its destructive work. This task is being accomplished more widely and promptly than even the sanguine expected. In nearly every state under repubready been abolished, or outlawed, stringent repressive laws have recently been enacted in response to the unmistakable demand of the people. Everywhere the best public opinion is reaching the conclusion that the saloon system is incurably and intolerably bad, and must be put out Organized under the general banking laws of

Wherever the laws, prohibitive or restrictive, have been enacted, they have CASH CAPITAL OF \$50,000 wrought a complete and permanent divorce between the republican party and the saloon. With local exceptions, which only prove the rule, the saloon vote has gone over bodily to the democratic side. It now remains for the republican party formally to recognise and act upon this allowed on all savings deposits of \$1 and upmost welcome event; to burn every re- wards, compounded every six months. maining bridge between itself and the iquor interest; to announce, authentically, its relentless hostility to the saloon scourge, and its purpose to make that hostility felt. There is nothing more to be lost; there is everything, including honor, to be gained.

It is the duty, and the privilege, of the epublican party, to recover and hold supremacy in this Nation. It can do both, by simply deserving such a destiny. It can o neither, if henceforth its platforms and its management shall misrepresent and betray the mass of its voting members, and their solemn determination to reach and settle this issue of the saloon against the home. Henceforth, silence on this subject is impossible; cowardice is the gate way to assured, because merited, defeat:

The saloon vote, having gone where it pelongs, could not be reclaimed, even if its leprous presence were desired. The liquor power, in state and Nation, has, for good cause, declared war to the knife against the republican party. Even where its representatives linger in the republican camp it is to confuse our councils and defeat our plans. The democratic party has accepted its alliance, and by that act has shut its gates against every honest friend of temperance. With courage, principle, and common sense guiding its course, the republican party can now make good, thrice over, the numerical loss it has sustained, and place itself on a moral plane which will render it invincible for the future. Partisan self-interest and the highest and most sacred interests of mankind unite to point out a common path.

As the national republican platforms of the past have rung with denunciations of American slavery and polygamy, both of which, within the states, were subject to state control, it is now practically assured that the next national republican platform will contain a clear and unequivocal expression in opposition to that other bulwark of barbarism, the American saloon power. While the warfare against this incendiary system must be mainly waged through the exercise of the police power of the state, yet the saloon is in National, as well as in state and local politics, and aloon movement within the republican the Nation within its proper sphere, as in cases of slavery and polygamy, touches this ubiquitous curse at a thousand points

We believe there will no longer be the spectacle of a political party, which stands for all that is best in the political life of our people, ignoring in its National utterances a political conflict which annually stirs every community to its depths, which lwarfs every other issue, and the result of which involves the future of human society on this continent.

To assure and signalize the complete withdrawel of the National republican party from all complicity with the saloon nfamy, and to emphasize its positive anagonism thereto, a National anti-saloon republican conference is hereby called, to assemble in New York City, at 11 o'clock a. m., April 18, 1888, and continue in session two days. This invitation is addressed to all republicans in the United States who sympathize with this movement and purpose, and to all members of other parties and unattached voters who are willing to act with the republican organization so long as it shall honestly stand for the homes of the people as against the saloon system and its criminal aggressions.

The Opsilantian.

Ristenling Science. Every great invention must run the gauntlet of opposition. At first it is ridiculed, then it is confronted with demonstrations of its unpracticability, and finally it is permitted to prove its claims, before judges who have prophesied its failure. This gauntlet is, however an excellent thing. It kills off hun-

dreds of badly planned schemes, and allows only the fittest to survive.

When, toward the close of the last century, William Murdock announced that coal gas would give artificial light, and could be conveyed into buildings, he was laughed at by the wise men. The sturdy old mechanic had used a long tobacco pipe to read by, the bowl being filled with coal gas, and the end of the stem supplying fhe light. Men thought it a mere toy. A member of Parliament asked any one to explain "how there could be a light without a wick?" His colleagues applauded the question as un-

Sir Humphrey Davy, not a little given to pooh-poohing other people's ideas, openly ridiculed the idea of lighting

"Do you intend taking the dome of St. Paul's for a gasometer?" he sneeringly asked one of the promoters of the scher When, twenty-five years later, Sir Humphrey invented the Safety Lamp, he himself was obliged to run the inventor's gauntlet.

Sir Walter Scott also made merry over the idea of illuminating London by "smoke"; but a few years later he in-troduced that "smoke" into Abbotsford. When the hall of the House of Com-

mons was to be lighted by gas, the architect insisted that the pipes should be placed several inches from the wall, for fear of the building taking fire. He was so ignorant as to think that lighted gas ran through the pipes, and therefore feared for the building.

When the pipes had been arranged, and the hall blazed with light, the members used to touch the pipes with gloved hands, and wonder why they did not feel warm.

A lady of rank, shopping in the first London store lighted with gas, was so delighted with the new artificial light home the gas lamp on the counter.

How Blood Oranges are Produced.

Strolling about the neighborhood of the Quincy Market, writes a Boston correspondent of the *Iowa State Register*, my attention was attracted by the sign, "Blood Oranges, \$7.50 a Box," which decorated the interior of an importer's shop. I had always approach that the shop. I had always supposed that the blood orange was a freak of nature, to be found semi-occasionally like a yellow fire-cracker in a pack of the Golden Dragons brand; but this, it seems, was a mistake, for the dealer assured me that the ruddy fruit was a distinct variety.

"It is artificially produced," he said, "by grafting an ordinary orange tree with the pomegranate. The result is an orange like any other, so far as flavor is concerned, but with red juice that is visible through the skin. It brings a slightly higher price, because it is regarded as a curiosity.

The people of Sicily cultivate it mostly. Yes, there are one or two queer kind of oranges I know of. The pineapple orange, which has something of the pine-apple flavor, is finding its way into the market. Then there is the 'naval" orange grown extensively in Southern California. It is considered particularly fine, and sells at correspond-ing prices. The most curious thing about it is the astonishingly accurate imitation of the human umbilicus which ornaments the extremity furthest from the stem. It is from this peculiarity that the variety takes its name. These naval oranges, by the way, are of the feminine gender, and have no seeds at

"I had a few sweet lemons in stock the other day," added the dealer. "They are quite a rarity. People in this part of world have poor taste in tropical it anyway. They will always pay fruit anyway. They will always pay more for a red bannana than for a yellow one, though the former is considered an inferior fruit where both are grown. The lime, too is far more prized in tropical countries than the lemon, but northerners think it is only good for pickling."

He Smoked, and Lost Two and One-Half Cents on Every Pound of Butter.

The following interesting story, appearing in the report of the Seventh Annual Convention of the Ontario Agricultural and Experimental Union, goes to show how scrupulously clean must be all the conditions surrounding the production of A 1 butter. It was reported by the Agricultural College at Guelph. There were two brothers, both ex-

tensive butter makers and exporters; one was an habitual smoker, while the other did not use tobacco in any shape or form. They both sold their butter through an agent on a foreign market, and the one who did not smoke always received a higher price for his butter than the other. Not being able in any other way to find out why this distinction should be made, they at last resolved to change and reverse the labels on the packages as an experiment. In due time a letter was received from the agent stating the strange fact of a very disagreeable taste or flavor in the butter belonging to the one brother which had never been known before; while the other, always with a bad taste before, was now pure and sweet, and worth 2½ cents more on the pound in market. The brothers were now convinced that it was the odor of the tobacco which had invaded the butter and injured its value. ter and injured its value.

Gibberish and Its Translation.

"Lemmeknow whenvergoin' woncher?" "Can you translate for me," asks Mary B. Dodge in Wide Awake, "this gibberish?" It is not Greek. It is not Latin. Neither is it a sample of any known living language, but just a corruption of our own English tongue, which the children and too many of their elder are prone to encourage through heedlessness and

The translation, "Let me know when you are going, won't you?" is easy enough speaking—except, it may be, the "won't you"—for all, at least, who appreciate the beauty of perfect enuncia-

"Won't you" may pass criticism in familiar colloquy, but this compressing of two words into one is never desirable.

"Will you not" is surely better. "Ain't" of course is a vulgarism not to be thought of in connection with any man or woman of graceful culture, yet we sometimes meet people, who imagine themselves fit to be leaders, who use this expression for all the negatives of the verb it represents: "I ain't, thou ain't, ain't, we ain't, you ain't, they ain't." Is it not absurd?

Scalloped Oysters.

Butter a pudding dish, roll crackers very fine, put a layer of crackers, then a layer of oysters; season with salt and pepper and put small bits of butter over oysters; fill the dish nearly full, having oysters on top; pour in sweet milk enough to soak the crackers; bake nearly an hour. If too dry when baking add a little more milk and butter.

Did you ever spend a day at a beehive? In a large apiary which I visited not long ago I discovered Italian, Syrian, and Holy Land bees living in harmony with their American brothers and sisters. busy as the Holy Land bees, though the atter have a bad name for docility, being easily irritated. The Syrians wear being easily irritated. The Syrians wear Burnside whiskers down their sides. They are indefatigable workers.

The bee-hive is a small two story house. The first floor is the brood chambers, and this the bees fill first with stores for the winter. It is also the royal residence of the queen. The upper story is for the surplus honey, and the bees fill this for the market. Honey is the nectar of the flowers. The bees do not make it. They simply gather it and lace it in the store-house. The bee-hive is a republic in one sense.

but rather a constitutional monarchy like England. Although there is an im perial queen to whom great respect is shown, she does not appear to possess much governing authority, and resigns the throne as soon as her functions cease. Uncovering a hive I watched the bees at their labor. The honey-comb of cells was covered with the workers. One would stop at a cell a moment and then along, then another would give a bite or two, and all seemed rather careless of regular work; but still there must be a gular plan of labor and a directing

Sentinels are constantly on duty at the door, but no particular bees seem to have been assigned the task. The wax-workindifferently with the honey-gatherers and the nursing bees that guard the cells where the young ones are hatching. The queen alone appears to have a regular task. She moves about the comb deposting eggs in the cells. She thus places om two to three thousand eggs a day. A colony of the insects in good form is composed of about thirty thousand bees, nd their average life being only from orty to sixty days there must be a con-

A queen reigns from one to three years. The eggs seem all alike and are made to produce workers, or drones, or ueens, as the colony nominates. The orkers are imperiect females, the ones are the males, while the queens are the perfected females and each has of her own. When a queen is wanted the bees select a cell and cut away the comb on both sides of it, and build a balloon-shaped cell about an inch This is carefully guarded and the pollen of flowers mixed with honey and water. Some of the cells are used as gazines in which to store the queen's The food of the young queen is

ant addition to keep up the popula-

The queen cells are never disturbed y the old queen during the swarming ason; that is, during the time when he bees have concluded that the swarm getting to large and it is time to divide he family. As the new queen is about be born, the old queen generally oranizes a new colony, and scouts having een sent out by her to find a good locaon, she departs with her followers and des to the new country. In the ch councils of beedom, if it is concluded t the colony can again be divided, the rst new queen takes off another colony. not, then her first act is to sting the ells of the other queens and put them

If two queens are hatched at the a tea-pot, whichever it was that prosame time a ring is formed and they fight to the death of one of them and the

The marriage ceremony of a new queen is performed in mid-air, and after the wedding the drone husband goes queen lives a happy widow the rest of her life.

The new queen is full of business. She wants every thing in perfect order about the hive. She will not keep the Irones over winter, but commands the workers to carry them out to die. The young bees that are hatched imperfect are immediately dragged out and put to death. If a foreign substance is too emoved it is immediately cemented over.

Frequently a scout comes around the colony from a neighboring hive. He endeavors to discover the strength of the colony. Watching his chance he will pass the sentries undiscovered, and when he comes again he will have an army at his back. The only resistance is made at the sentry gates, and very often fierce battles occur, many of the lighters being killed and injured. If the attacking party wins the battle the conquered colony helps to carry its own honey home to the victors. The believe that to the victor belong the spoils.

One of the most important facts about the bee is that it can sting but once, and dies soon after.

Story of a Swallow.

People have swallowed unpleasant creatures while incautiously drinking from brooks and springs, and it is said a mouse once ran down a dog's throat; but we never heard of a boy swallowing a mortal. bird.

The Boston Record tells of one who narrowly escaped doing so.

"I've heard of strange accidents befalling people," remarked a surgeon the other evening, "but the one I was called upon to attend the other afternoon beats nything for novelty that ever came under my notice.

"A little boy was flying a kite on the swallows came flying by.

"One of the swallows, evidently confused flew against the boy's face, driving nis bill clean through his cheek. In his agony the lad closed his teeth hard and you. head the bird fast. The swallow was "But I copartly stunned by the shock, and, with it is mine

cook told me to tell you that she had told me to eat it, sir."

Broiled or Fried Tomatoes.

Broiled or fried tomatoes are cooked precisely as sliced potatoes would be. They should be of good size and not over-ripe; otherwise, dip in bread crumbs before frying.

-"Gerty did I show you this engagement-ring of emeralds and diamonds that Charlie Brown gave me?" "Oh, I have seen it before!" "Seen it before?" les, when I was engaged to him last

Wheat Germs.

We have not seen "wheat germs" receive its mead of praise from good house-keepers. It is so wholesome and so easily prepared, and so delicate, yet so sustaining, that it serves us for breakfast without coffee or toast,—the usual adjuncts. Of course, it wants a liberal supply of cream, and sugar, if preferred. We get a half pint of good, thick cream, then add one cupful of new milk to that, and it is as rich as ary palate will crave. The wheat germ is prepared in just five minutes, and ? en-cent package will make four meals for a family of six persons.

Macaroni and Cheese.

Break the quantity of the macaroni needed for the family into hot water, and boil about fifteen minutes; then pour off the water, and put a layer into a deep dish; then a sprinkle of cracker crumbs, and some bits of broken or shaved (not grated) cheese. Season with salt, and so fill the dish, leaving space for a last or top layer of the cracker crumbs. Pour all enough milk to moisten, bake slowly for three-fourths of an hour. It is a dish fit for a king.

Spiced Currants. Spiced currants are close rivals of currant jelly to serve with venison and Take one ounce of unground mutton. cinnamon, half an ounce of unground cloves, one tablespoonful of whole all spice, the same of whole mace, to one pint of vinegar, four pounds of currants and two pounds of sugar. Boil the currants in the sugar with the spices tied up in a little bag; when they are nearly a thick jam add the vinegar. Cook a little longer, and, removing the spices, put up in tumblers like current jelly.

Tomatoes and Green Corn.

Tomatoes and green corn make a dish not to be despised. Stew the tomatoes, as usual, for thirty minutes, then add an equal quantity of corn cut or scraped, from the cobs, and cook thirty minutes longer, with frequent stirrings. Season with salt and one large teaspoonful of butter, or with half a cupful of rich milk or sweet cream. If preferred it can be baked in an oiled pudding-dish forty

Salmon Salad. Two bunches of celery and one very small head of cabbage chopped fine, then add one can of salmon with the bones picked out. For the dressing take one tablespoon of butter, four tablespoons sweet milk, four tablespoons vinegar, salt, pepper and a little French-made mustard, one egg. Cook like custard, and when cool put over the chopped as soon as the dressing is put on. .

One pint of bread crumbs, one quart of milk, warmed and poured over the crumbs; yolks of four eggs, beaten with one cup sugar and one teaspoonful but-ter; bake. When baked, spread over the top a layer of jelly or preserves. Beat the whites of eggs dry, and add two tablespoons of sugar, and spread over the top, return to stove and bake a light brown. Serve warm with sauce, or cold with sugar and cream.

Ice Cream.

Three quarts of milk, nine eggs, four tablespoonfuls of arrow-root and three cups of white sugar. Set the dish containing the milk in a kettle of water, and when hot add the arrow-root, previously wet in milk, the sugar and the eggs. Cook a few minutes and flavor when cold. This will fill a gallon freezer. Less be used, but your cream will not be so nice. Weeds.

Every farmer should recollect that every weed permitted to go to seed will produce hundreds of more weeds that will require a hundred times more effort to destroy another year. It is better to let no weeds go to seed to produce others which rob the soil and prevent the growth of useful plants. What a shame it is to see a good pasture or a good farm taken by weeds. Clean, thorough farm-ing is what is needed in this age of sharp competition among farmers.

Sick Poultry.

Some poultry dealer says: "The best remedy for roup, which is indicated by a discharge from the nostrils, hoarse breathng and refusal of food on the part of the towls, is to inject in each nostril. with a syringe or sewing machine oi can, two drops of a mixture of one table-spoonful each of lard and crude petroeum, to which ten drops of carbolic acid have been added.

An amendment was adopted, making the questions to be considered by the

The Brotherhood of Locomotive Engineers numbers about 25,000 members—the total number of engineers in the country being in the neighborhood of 30,000. At the head of the brotherhood is the greatest labor organ Secretary of the Interior for information as to the authority of law under which this order was issued. By Mr. Mason, of Illinois—Providing that hereafter letters issued by the Commissioner of Pensions and fixing a time within which pension proofs must be furnished shall contain a statement that no statute of limitation is applicable to pension claims. A testimonial of respect for the memory of W. W. Corcoran was placed on record, and the House adjourned. izer and manager in America, P. M. Arthur. In April the brotherhood will be twenty-five years old. From twelve members it has grown to 25,000. In eleven years this is the first strike Mr. Arthur has been unable to settle. The elevated-railroad strike was not under his direction and was inaugurated in defiance of the rules of the order. It was not successful. The policy of the order has always been pacific. Chief Arthur has the respect and admiration of every law-abiding citizen in the land because of his wise and prudent management of the difficulties that have arisen from time to time between his railroad companies. The order is the richest in this country and best able to maintain a

The Chicago, Burlington & Quincy railroad covers the territory of an empire. Its 6,000 miles of main and leased lines gridiron the States of Illinois, Iowa, Missouri, and Nebraska. From Chicago it reaches Denver, Col., over 1,000 miles away, and Cheyenne, Wy. T.—equally as far. Minneapolis to the north and St. Louis to the south are within its reach. It is one of the best managed and equipped roads in the country and one of the

Perhaps the most remarkable element of the strike is its peaceable character. The managers of the brotherhoods-for the firemen are also in the strike-are the coolest men in Chicago. The firemen are nearly as strong as the engineers and are virtually controlled by the latter. If the road can get the men to run its trains, neither Mr. Arthur, nor Mr. Sargent, grand master of the firemen, will lift a hand.

The notice sent out to the police stations to look out for riots was as idle as it was silly. The strike will be one of "hands off" on the one side and a determined effort to fill the strikers' places with new men on the other

Between 11 and 12 o'clock Monday morn ing S. E. Hoge, chairman of the grievance committee of the Brotherhood of Locomotive Engineers on the Burlin, ton system, and J. H. Murphy, chairman of the grievance committee of the firemen, called on General Manager Stone at the company's offices and gave him verbal notice that unless their de mands were acquiesced in the men would strike at 4 o'clock Monday morning. Mr. Hoge briefly stated what the men wanted.

Mr. Stone heard them through and asked if that was their ultimatum. They said it was. They told him that they, with Chief Arthur, could be found at the Grand Pacific hotel until 4 o'clock in the morning if he de sired to communicate with them. The interview was over and the committeemen re-

The differences between the engineers and the road have been under discussion for four weeks, and Mr. Stone was familiar with them. The engineers demand that all be paid the same wages. The company present classifies its men and grades their wages. First-year men, those just promoted from firemen, receive certain wages, estimated on the miles run, and second-year men a higher price per mile. Full engineer wages are not paid until the third year. The engineers claim that the Burlington road pays less than many third-class' roads. All the roads centering in Chicago, except the Burlington pay their engineers according to

referred on March 1st was one by Mr. Palmer The grievence committee of which Mr. Hoge of McCook, Neb., is chairman, is comthe order in the Chicago, Burlington & Quincy system. It is a standing committee, and has had entire charge of the negotiations with Mr. Stone. These failing, Chief Arthur ment of the difficulty. He also failed. The committee agreed that the strike should begin a 4 o'clock in the morning on

Feb. 27. At that hour most of the engineers will be at the end of their runs and fewest trains will be in motion. All the local ate, without a vote on the pending amendment, adjourned till Monday.

HOUSE.—Mr. Blunt, of Georgia, from the divisions, and through them every member of the order employed on the Chicago, Burlington & Quincy system, have been ordered not to go to work this morning unless notified by the chairman of the grievance committee to report for duty. The firemer holding positions dependent on those of the engineers have acted with the latter in everything. They are siamesed in such manner that the strike of the one necesitates the strike of the other. Trains leaving betore 4 o'clock in the morning were run to the standing the provisions of the treaty of Nov. 17, 1880, between the United States and Chinese, and the laws passed in pursuance thereof. Adopted. The floor was then accorded to the Committee on Foreign Affairs

Every man in the shopswho could manage an engine was ordered to be ready to go out with one. Applicants for jobs as engineers got them in a hurry. Early in the evening the officers of the road said they had enough men to run three trains each way. The

hundred, the firemen nine hundred. The difference in numbers is apparent, not real. Many firemen recently promoted to engineers have not severed their relations with the firemen's brotherhood. Nearly three dred firemen and engineers belong to neither organization, being ineligible by reason of bers of the two orders.

The chief depots or roundhouses are located at Aurora, and Galesburg, Ill,; Ottumwa, Burlington and Creston, Iowa, and Lincoln, Omaha, and McCook, Nebraska. These cities are at the ends of working divisions of the road. Into the roundhouses the aband-A LIFE CONVICT AT THIRTEEN. once engines will be run. At these points, also, the new men will go to work. Johnnie Beal, of Onio, Regins His ity a committee of the brotherhood will wait on the new men and offer them better wages to do nothing than to accept the company's terms. The policy of the strikers will be to appeal to the applicants for work John A. Beal, a boy aged only 13 years, was received at the penitentiary at columbus, O., on the general ground of mutual interests on the 29th ult., his sentence being for life. and sympathy, and failing in that, to attack About eight months ago, the boy's mother, the selfish side of new men by offering them who lived in Preble county, was found murhigher wages than the company will give. dered, and her body frightfully mangled.

COLLAPSED WITH A CRASH.

layed suspicion. At the coroner's investiga-The New Midland Hotel at Kansas tion he was upon the stand for three hours, City, Wrecked by a Falling Roof. but he baffled all the ingenuity of the at-

was to the effect that tramps had broken into At noon Wednesday a portion of the roof of the house and killed his mother. The boy the nearly completed Midland Hotel, at the corner of Seventh and Walnut streets and was finally locked up. He was visited by clergymen, and finally confessed to having first shot his mother, and afterwards horribly mangled her with an ax. The only cause for the act was the refusal of his mother to allow him to put a pillow upon the floor. The boy The wife of James McElmore, living at lets, two boys and a girl. The couple have been married only three years and this is in that time and all alive. The McEelmor

injuries of the remaining victims being con-

fined to bruises and sprains.

The hotel was projected by Messrs. N. B. Ream, W. B. Hale and James B. Smith, of Chicago, and represents an outlay of nearly one million dollars. Messrs. Howe and Hill, lessees, were to have opened it May 1, but they now say that it will be impossible to open before September. The extent of the damage to the building cannot be computed with accuracy as yet, but the owners seem to

think that \$50,000 will cover the loss. The cause of the collapse appears to have been the giving way of a "shoe" supporting one of the trusses which held up the roof and ceiling of the top floor. The heavy steel beam being knitted to others pulled the adjacent truss down, and they tore their way down through the lower floors as though they were so many egg shells, piling up a mass of terra-cotta flooring, bricks, plastering, and mortar. The result of the accident leaves the hotel with a hole about fifty or eventy-five feet square, where the beams forced their way downward, while, a great part of the immense building is not injured

A TRAIN LOOTED.

A St. Louis, Arkansas & Texas Express Effectually "Held Up" Near Pine Bluff, Ark.

A Quartette of Bandits Make the Engineer and Fireman Do Their Bidding.

The train robber has again appeared in Arkansas-this time on the St. Louis, Arkansas & Texas Railway, about twenty miles below Pine Bluff. As train No. 2, north bound, stopped at Kingsland about 1 o'clock this morning three men stepped on the platform of the baggage car, next to the engine. About a mile from Kingsland the train suddenly came to a standstill, and Conductor J. B. Browning stepped to the door to see what was wrong. As he opened the door a bullet whistled by his head, and he at once retired inside the car, where he remained during the trouble. The robbers went to work in a cool and systematic way. They boarded the engine and commanded the engineer, Robert Rue, and Fireman Edward Hacknett to hold up their nands. Hacknett was just in the act of putting a shovel of coal in the fire box and supposing it was one of the trainmen trying to perpetrate a joke, held up his shovel exclaiming: "Ah, there." The robber, with grim humor, dropped the muzzle of a six-shooter against the fireman's cheek. with the words: "stay there, you The fireman quickly climbed down from the box. Taking the fireman and engineer with them the robbers ordered them to call on the

messenger to open the car. They did as ordered, but he refused to show up. Then began a tusilade which lasted while attempts were being made to force a way into the car. The fireman was ordered to take the slashbar from the engine and break in the door of the car. He did so but he could not get in. After ten minute's delay the robbers proceeded to set the car on fire. This forced the messenger to open the door, and the engineer and fireman were made to get into the car first, their bodies thus protecting the robbers as they climbed in. The messenger opened the safe without further trouble and the con tents were quickly transferred to a sack. The exact amount taken is not known though it is believed to be large. The mail car and passengers were not molested. The engineer and fireman of this train were in charge of the train robbed at Genoa, Ark., few weeks ago. The messenger received note at Texarkana warning him to look out, but he paid no attention to it, believing it to be a joke. The robbers were just thirty-five that between \$5,000 and \$10,000 were taken. Some place the loss much higher. The Sheriff and posse are in pursuit of the robbers.

A POSTOFFICE IN EVERY TOWN. The Senate Committee Has Agreed to Report Favorably on Mr. Paddock's Scheme.

The Senate Committee on public buildings and grounds has had under consideration for some time and has finally agreed to report favorably a bill introduced early in the session by Mr. Paddock of Nebraska, providing for the erection of a postoffice building in every city and town where the population brings to the government a revenue of \$10,000 a year. This measure has been company has been running twenty-six such very widely indorsed by the newspapers throughout the country and petitions The strike involves the places of about two have been sent in asking for its passage thousand men. The engineers who are mem- The bill provides that the building to be bers of the brotherhood number about eight erected shall not cost more than the aggregate revenues of the postoffice for the past three years, and Mr. Paddock argues that it is not only a measure of convenience, but econ omy. It is shown that the rentals paid by the government for postoffice buildings amount to much more than a fair rate of interest on the sum of money that would be reterm of service, but these men are said to be quired to carry out this plan, and that a handas anxious to promote the strike as the mem- some public building in each town and city of more than 5,000 or 6,000 inhabitants would be a public benefit.

A board is provided for, consisitng of the secretary of the treasury, secretary of the interior, and the postmaster-general, to superintend the erection of such buildings, and the plans are to be drawn in the supervising architect's office. An appropriation of \$2,-000,000 from the surplus revenues of postoffice department and \$3,000,000 from the public treasury is made by the bill, and it is expected that the committee on public uildings and grounds will report it next week.

THE SPANISH CAMP ATROCITY. Demoniacal Murder in Texas of Seven Negroes-Further Trouble

A special telegram from Houston, Texas, says: Full particulars of the massacre of negroes at Spanish Camp have not yet been A dispatch from Kansas City, Mo., says: living in this city, who has been teaching a year. school at Spanish Camp, returned to this eity, becoming frightened after the killing Grand avenue, collapsed and fell with a of the negroes. He reports great excitecrash like a peal of thunder, and a tremend. ment among the colored people. The trouble ous mass of derrick, mortar, iron pillars and was over land on which the negroes lived, other debris fell to the ground floor, eight the district court deciding in favor of the stories below. About sixty men were at work in the building at the time scattered throughout the various stories, and it was wounded. The cabin was approached while feared for several hours that a large number the inmates were asleep, and kerosene oil Texarkana, Tex., has given birth to trip- of them had lost their lives. A gang of poured around the bedding and then fired workmen was immediately set to work, simultaneously. The murdering began as searching for the body of Frank Edison, a the half-sleeping negroes rushed from the young carpenter, who was the only man burning house. Five were killed as they Of the dozen men injured rushed out and two were shot in the house only one, Jack O'Brien, a Chicago and their bodies cremated. Only one esplumber, is in a dangerous condition; the caped, and he was severely wounded.

CHAPTER IV.—CONTINUED. "Wait till you see, and then give gay laugh.

'I am sure it will." "How can you be sure? It may look

"Nothing could look that on you." "Pooh! Jack, don't pay me compliments; you will make me vain;" and she made a tempting little moue that made poor Bingham think-

man would give all other bliss, and all his worldly worth for this, to waste his whole soul in one kiss, Upon her perfect lips.

"You will wear my flowers to-night,?" he pleaded, as they reached Hadlow home-park and stood to say

"Your flowers?" she asked interrog-

"These?" he said, touching the violets and primroses.

"Do you call those yours?" merrily. "Yes I gathered most of them. But what I mean is, you won't wear any sent you by some other fellow."

"No matter who he may be?" All his love and his jealousy spoke in those

"Thanks, Dolly. These are more suitable for you than hot-house flowers."

"Do you think so?" "Yes.

"Why?" with an inquiringly innocent glance at him.

"Oh, because you are young, and innocent, and fresh, and modest, and these violets are emblematic of all "Jack, you will make me vain,

with a little pleased thrill of musical laughter at his flattery. 'I hope not, Dorothy," he said

gravely. · Do you?" "Yes. You haven't an atom of

vanity about you now, and that is what-"Then why do you try to destroy what you like?" she demanded naively,

with another look from the clear eyes. "I hardly know," he returned with an embarrassed laugh. "Why do we do all sorts of things that we ought not to, and why do we act in such a way that we bring about our own misfortunes, wreck our own lives, rob a ray of joy to lighten them, nor a

hope to make them endurable?" Jack, what is the matter with you?" was so bitter, his looks so despondent

suppose, or perhaps," with a jeering laugh, that struck discordantly on his companion's ear, "the wind is in the Paris." east, and then, you know, it is 'neither good for man nor beast,' and no one can be expected to be cheerful or responsible for the vagaries of his tem-

"I don't think it is in the east." she said half doubtfully, looking up at the bright blue sky flecked here and there with fleecy silver clouds, and at the golden sunbeam that danced and quivered through the air, and flecked the emerald sward with golden patches.

"Well, make up your mind by tonight as to which quarter it is in and tell me then, and don't forget to wear my flowers; and then with lingering pressure of the hand he left her. Dancing had commenced that night

when the Binghams arrived at Had-The great entrance-hall was the

scene of action, and figures in armour and frowning family portraits looked

down on the gay scene. Dorothy was standing by Lady Lovatt in her muslin gown, with its trimming of woodland blooms, a flush on her fair cheek, a glad light in her eyes.

She looked dangerously beautiful, and Bingham, without a moment's hesitation, went straight across to her. "How many may I have?" he whis-

"As many as you like," she answered in the same tone, giving him her programme.

Eagerly he scanned it, and finding Lord Yarra's name down for only three, he pretty well filled up the blanks with his own, leaving only one or two vacant.

"This is mine," he said, offering her his arm as the band commenced playing again—a valse.

Yes," she acquiesced with a happy smile, placing the tips of her little white-gloved fingers on his arm, and away they went whirling into the midst of the cowd, the best pair of dancers in the room.

"That was delightful!" she smiled when it came to an end. "Yes; wasn't it?" agreed her com-

panion; "and the next is ours." And it was, and the other after that too, and then Bingham, not seeing the

earl, asked where he was. 'I don' know," answered Miss Hadlow indifferently. "He was dancing Lady Fitzeadeline. I suppose he has taken her to some other room."

As she spoke Lord Yarra entered the hall, and leaning on his arm was a very fast and fashionable-looking woman, dressed to perfection; yet the perfection of her toilet was powerless to entirely hide the planness of her opaque white face, with its frame of red hair, and additions that nature

never intended it to have. The earl did not look over well pleased, and when he had left his companion in an easy chair near Lady Lovatt. he came over to his fiancee with some-

thing of a frown on his brow. "I have cancelled all my engagements to-night, Dorothy," he said in his usual authoritative way, "so I should wish you to dance only with

me for the rest of the evening, and to make excuses to any gentleman you have promised valses to."

"Yes, Tarrance," she said meekly. "Will you excuse my keeping my engagements with you?" she asked, turning to Bingham. "Certainly," responded Jack with a

heart sank like lead as the girl took the arm of her future husband and moved away by his side. Jack Bingham was a good dancer, tall and strong, yet light, and able to guide in a marvellous way, so he had no lack of introductions and partners;

but the whole thing was a farce to him, and his partners found him inattentive and absent. He was occupied watching the earl

with his cruel face bent over Miss Hadlow. It was a face of a merciless type. The mouth was hard, and looked well qualified to utter bitter cutting things, and the eyes were stern and your opinion," she answered with a cold, and the chin square and heavy. Jack couldn' wrench his eyes away from the two heads in such close proximity to each other, and every time Lord Yarra's moustached lips stole close to his fair companion's ear he winced and turned pale, pressing his foot heavily against the floor as though trying to crush down his aching rebellious heart under an angry heel.

control himself, and he was rather the ent season's experience will convince worse for the conflict next morning, looking deathly pale, with great purple marks like bruises under his haggard eyes.

"Jack, I wish you would be sensible and go away," said his sister, looking at him with pitying eyes. "I can't," he answered hoarsely,

shaking his head. "I think it would be greater pain to go than to stay." "You are wrong, and you will find

out that youare so." And he did. For a fortnight he endured unspeakable anguish, seeing the earl, who seemed to have quarrelled with Lady Fitz, pay Dorothy marked and devoted attention, showing to all the world that she was soon to be his nearest and dearest; and then the trial became too bitter for him-too hard to bear, and he arrived at the conclusion that his sister's advice was good, and ought to be acted on.

So when the willows were putting on their dress of delicate gauzy green, the chestnuts getting burdened with broad leaves and buds, the meadows filling fast with cowslips, cuckoo flowers and buttercups, the lark and blackbird beginning to sing, and the whitethorn to blossom, Jack went up to London, feeling that spring, with its sweet perfume of violets, its balmy winds, its sunny days, its general regeneration of nature and torpescent ife, was a mockery to him, and that it was awaking within him old sentiments, old longings, old vain hopes, and that he would go mad if he remained in the country and saw the cation that the farm is well managed in woman he loved so well marry another every other respect.

CHAPTER V.

And if for ever, Still for ever fare thee well!

"Do you think Jack will be away them barren, blank wastes, with never sister a few days after his departure. runners formed from heavy oak or Miss Hadlow had asked his "Not very long, I think," Miss Bingham replied evasively, lacking courage to tell the girl who looked at she queried in amazement; his tone her with such wistful longing in her eyes that he had gone away to avoid

"I wish he could have remained here speak lightly. "I am a little blue, I now. I shall see so little of him after reside the greater part of the year in

"Oh, indeed! And then Blanche, feeling a great pity for the girl who so unconsciously was going into a terrible lifelong bondage, said consolingly: "I dare say he will be back before the spring is over."

But spring waned, and summer with its wealth of lovely roses, its short, starry nights, and radiant sunlight days came generally is for the silo, makes thin, and August was fast merging into white and innutritious stalks. There is September ere Jack returned to the no gain to this kind of feed by putting picturesque vicarage.

"Do you know she isn't married vet?" ventured Miss Bingham the fol- thin on it, just as they will on watery lowing morning from behind her stronghold of the great silver coffee urn, as she sat tete-a-tete at breakfast with her brother.

man shortly. his coffee cup, but his sister noticed same bulk of ensilage put up as it is

under all his healthy sunburn. "Why didn't it take place?" he asked after awhile. "Some whim of Lord Yarra's. He

fancied the palace of an Italian duke, and could think of nothing-do nothing until it became his." "Did Dorothy object to the post-

ponement of her wedding day?" was very glad."

"Here she comes!" added Miss Bingham, as a shaggy Shetland pony clattered up to the door, and the subject of their conversation sprang off his "Will you see her?" back.

"Of course." And a moment later the girl he idolized entered the room. the best returns from selling young to-day; but I have come to tell you we Oh, Jack-Jack, is it you?" she cried, catching sight of him, and running forward with outstretched

hands. "Yes, it is I," he replied, taking the little hands that trembled somewhat frosts oftener than from any other in his, and looking down at her fair cause. It pays farmers who have had gard to it, and they are good. How- it be understood beforehand that this James's supporter. The room was upraised face, and into the clear this experience to get the earliest variedepths of her innocent eyes.

"I did not know you were here."

"I only returned last night." "And you are going to stay now? You won't go away to Norway or Vienna, or any of those faraway places again, will you?"

in her voice, and Jack Bingham pressed the hands he held, and murmured

lightedly. And Blanche, as she stood by the open window and gazed out over the beech-studded lands, felt that fate had been cruel indeed to those two who loved each other. The one consciously, with all the pain, and passion, and regret that love brings in its train; the labor and ease the old way of trampling | Father above.

pain and regret before Old Time turned his mighty glass once again, and another year sped by. TO BE CONTINUED.

tainty of enduring the same hopeless

FACTS FOR FARMERS.

FEEDING TURNIPS. There is no use saving the common turnip for late feeding. Soon after January it becomes pithy, loses its flavor and feeding value. The rutalow and ceremonious bow, but his baga is a better keeper, but it also becomes pithy later in the Winter. Beets and mangels are much better feed for cows late in the season, and have the advantage that they give no bad flavor to the milk.

SAVING COAL ASHES. Although analysis shows little manurial value in coal ashes, they are undoubtedly beneficial as a mulch for trees, keeping the soil open and allowing rain to soak into the soil without pushing the surface. They are also good absorbents of odors, and in the henhouse or privy, mixed with their contents, they make these valuable manures more convenient to handle.

FRUIT PROSPECTS. The widely extended cold weather this Winter has severely tested the hardiness of all fruit trees exposed to it. At the West the extremely low temperatures have probably destroyed this year's crop, even if the tree sur-It was an awful struggle for him to vives. It is quite likely that the presmany in the far Northwest that they must depend upon other localities for all except a few of the hardiest fruits. WINTER MADE BUTTER.

Since the adoption of the creamery system buyers are more careful to get butter freshly made. By the old dairy process June-made butter could be kept the year through, and be better in Winter than that made then; but this is little done now. Somehow nearly all the best butter makers now use the creamery process of setting milk, and the poorly made butter never would keep, anyway. With corn meal, roots and ensilaged corn fodder butter may be made in Winter of nearly as good quality, though not quite so well-colored naturally as that made on grass in Spring and early Summer.

REPAIRING FARM BUILDINGS. A farmer who is handy with tools ean do much valuable work at repairing during mild weather in Winter. On too many farms the little repairs are neglected until it becomes necessary to expend nearly as much as new buildings, fences and implements would cost. A good kit of tools with paints and brushes will enable many a farmer to keep his premises in repair, and thus add more than the cost to the market value of his property. If the farm buildings and fences are kept in repair, it is generally taken as an indi-

STONE SLEDS FOR WINTER WORK. The common stone boat is too cumbersome for work in the snow when it lies deeply in woods and fields. What is wanted for Winter use in the woods is a strongly made sled, with its from the ground. If properly shed such a sled will be very strong and durable, saving many times its cost before being worn out. Many prefer stones at any season of the year. They narried. Lord Yarra intends to are much easier to load than wagons, and easier to haul than the common stone boat lying flat on the ground.

VARIATION IN ENSILAGE. It is too much the fashion to regard ensilage products, if of the same food, as identical in quality. But every one knows that corn fodder, which is most used for ensilaging, varies greatly. That grown thickly in rows, as it it on the silo. Unless the lacking nutrition is supplied, cows will grow grass at pasture in May. The succulence of ensilage makes it excellent as a basis for increasing the "Yes, I know," replied the young milk yield in Winter. Large cornstalks, that have borne ears, contain a He bent his head as he spoke over great deal more nutrition than the his tips quiver and his color change commonly grown.

ADAPTING BREEDS TO LOCALITIES. There are natural limitations in breeding for different purposes, and the breeders used to know what these are. Among cattle the beef-producing varieties will always be found most abundant, and best developed where corn is largely grown. The best cows will be bred "No; on the contrary, I think she where good grass and plenty of water abounds. The small early maturing breeds of pigs are not so well adapted to the West and South as the larger boned and hardier Jersey Red and Poland China. Doubtless there are some places where poultry is best that gives "Good morning Blanche. I am early fowls for broilers, while in others cais the main point to be considered.

The hand shellers require two men to work them to any advantage, one to turn and the other to Jones?" "Well, to tell the truth, the cents. a day is a pretty good work, and no game since it was born, so I haven't time must be lost at these short days. | called it at all."-Omaha Republican.

Still a hand sheller saves a good deal over the slower process of shelling with the naked hand. In shelling corn for poultry it is better to shell and feed one ear at a time, giving the fowls a chance to eat more slowly, but this can be managed by feeding slowly, even though the corn is all shelled before the shelling begins.

SELLING HAY AND STRAW. In many places this year the hay crop was shortened by drought. Almost everywhere hay is selling at fair price, on account of the deficient corn and oat crop. Whether a farmer shall sell hay or not cannot be decided without reference to his circumstances. Many farmers condemn all selling of hav or straw as sure ways to exhaust the farm. But in many places this year they bring much more than their small manurial value, especially for the straw, and they are not proportionably so cheap for feeding as grain or oil meal. To sell some straw and invest the money in richer feed may often be good policy. Every farmer must determine this for himself on the relative oulk of poor quality manure.

SPREADING MANURE ON SNOW. Winter is a good time to haul manure, providing it is not so scattered in the barnyard as to be frozen in. The large heaps, especially of horse manure, need frequent handling to prevent the manure from firefanging. Many, however, are doubtful about the prosperity of spreading manure on snow. If the ground is unfrozen beneath it, and the land not subject to overflow, there is little loss. We remember once spreading manure on the upper part of a pretty steep hill-side in March. The ground was covered with snow at the time, and we then supposed that considerable of its strength would be washed down the hill, and therefore did not manure the lower part. It was really surprising to see by the growth in the subsequent crop that the effect of the manure did not go ten feet below the line where the manure was applied. The spring was a wet one, but all the water-soaked manure was absorbed by the soil directly under it.

MANURING THE BEAN CROP. Beans are bringing a pretty good season's drought, which lessened the potato crop and thus left an increase demand for them. For some reason this crop has not paid very well tor several years, and this, as is usually the case, has discouraged production. The price has been low and the yield have long been grown. Farmers have learned that the old idea that beans do one. They do not require a large amount of carbonaceous nitrogenous manures, as these tend to produce too great a growth of straw with brittle grain. But no crop is more benefited by phosphate than beans, and if this is applied with a moderate dressing of stable manure a good crop will be pretty certain. Beans can be planted after all other Spring grain crops are got in the ground, and can thus utilize and that would otherwise be left unsuch a sled for rough work in drawing cropped. Beans can also be planted in vacant places in corn, potatoes or other hoed crops. - American Culti-

four tablespoonfuls of water. POTATO ROLLS. Add to twelve mashed potatoes salt, butter and a cup of milk and two eggs, make into rolls, cover with flour, and fry brown in butter.

A Lively Two-Legged Bear.

On Saturday last a bear was started in the town of Brighton, about ten miles above Athens. He was pursued by men and dogs all day long, and at night they had run him down into town, when, night coming on, the unters camped at Wilson Wells.

In the morning of Christmas they started in pursuit again and found that he had passed down south by the village, crossing the road near Joshua Dunton's. They tracked him up into the mountain, which lies to the south of our village, and came in sight of our village, and came in sight of him several times during the day. Night coming on again they had to drop the pursuit until morning. At noon next day they had surrounded him and driven him to close quarters.

He showed pleanty of fight, and but for a little dog which attacked him in the rear, causing him to turn, one of the hunters probably would have got a taste of the quality of his teeth and claws. His gun refused fire at close quarters, where he clubbed it to defend himself. The bear being right upon him at this juncture, the dog rushed in and fastened to the bear, who at once turned his attention to the dog; the other hunters coming up at once ended the race with a few well-aimed

bullets. On examination the bear was found to have but two legs, one hind leg evidently having been taken off long ago above the gambrel joint, and one fore leg above the knee joint and close to the body. Notwithstanding he had but two legs he would canter of as though he had four, and gave the men

COLONIAL HISTORY. Mr. Stanley, of Rawsonville, has shown us an interesting volume published by the State of New York in 1856-Vol. I of "Documents Relative to the Colonial History of the State of New York." It is prefaced by a map of "America Septentrionalis Pars," by A. Iacobsz, Amsterdam, 1621. It shows the coast from Labrador to Venezuela. The St. Lawrence is traced but a little above the gulf into which it empties, and there are no lakes. What was after ward New Brunswick and Lower Canada was "Nova Francia": New England and the Middle States were "Niev Nederland" from Maryland to the Carolinas was "Vir ginia"; and the Gulf States were"Florida." The coast line is surprisingly accurate, though its westward trend is exaggerated.

Another map, dated 1616, exhibits the discoveries of "Schipper Cornelis Hendricx, of Munnikendam, in a small yacht of 8 lasts burden, named The Onrust, which the memorialists had caused to be built in New Netherland," as reported to the States-General. It traces the coast from Nova Scotia to the Chesapeake, and extends considerably inland. The St. Lawrence, "De Groot Riviere van Niev Nederlandt," is traced with numerous branches farther west than Lake Ontario, but the lake was not found. The Hudson, "Riviere vanden vorst Mauritius," is wider than the St. Lawrence. Lake Champlain, "Het Meer Vand Irocoisen," is not half so far west of the New Hampshire coast as it is east of the Hudson. The country is dotted ness given them. everywhere with Indian tribes and villages, some of their names recognizable, and some

Still another map, the largest of all, and the most grotesque, is thought to date from 1614, and is a report "of what Kleynties and his comrade have communicated respecting the locality of the rivers, and the position of the tribes which they found in their expedition from the Maquaas into the interior and along the New River downwards to the Ogehoge, the enemies of the aforesaid northern tribes." This map indicates Lake Ontario, called Versch Water. There is no St. Lawrence, but a river that must be the Susquehanna has its source in the Lake and discharges at the mouth of Delaware Bay. It is a prodigious river, and receives in its course branch of the Delaware, the other branch emptying at the head of Delaware Bay The Hudson has its source not more than two miles from the Atlantic coast, and far north of Lake Ontario, the coast there trending sharply northwest. The rivers resemble the seas of Mars, and it is evident that Kleynties and his comrade failed to convey a very clear idea of the regions they visited. One of the documents complains that in 1626 the English had built a town in Conittekock, called Hertfoort near the Dutch fort established on the river, to the great inconvenience of the Hol-

The following document is interesting enough to copy entire: "High and Mighty Lords, My Lords the

States General at the Hague: "Yesterday, arrived here the Ship the Arms of Amsterdam, which sailed from New Netherland, out of the River Mauritius, on the 23d September. They report that our people are in good heart and liv in peace there; the women also have borne some children there. They have purchased the Island of Manhattes from the Indians for the value of 60 guilders; 'tis 11,000 morgens in size. They had all their grain sowed by the middle of May, and reaped by the middle of August. They send thence samples of summer grain such as wheat, rye, barley, oats, buckwheat canary seed, beans and flax.

The cargo of the aforesaid ship is:-7246 Beaver skins. "1781% Otter skins.

"48 Minck skins. "36 Wild cat skins.

"34 Rat skins.

"Considerable oak timber and hickory. "Herewith, High and Mighty Lords, be commended to the mercy of the Almighty "In Amsterdam, the 5th November, A.

Miss Maddern is probably the most interesting young actress now on the American stage. She has keen intelligence, a style, so far as it has been formulated, wholly her own, unlike that of any other player, and entirely free from conventionality, and a most charming personality which attracts the sympathy and admiration of theatregoers.-New York Times. Opera House Saturday

The Only Line That Gets There.

It has been well said by a distinguished writer that "the Michigan Central is the only 'Niagara Fal's Route' in the country." It is the only railroad that runs directly by the falls and stops its trains at a point from which all parts of the falls and the rapids are in full view. From this point, called Falls View, the scene from the Michigan Central train, whether in its summer setting of emerald or its winter setting of crystal, is one of unexampled grandeur and sublimity. As it is on the direct route to New York, Boston, and New England, no east-bound traveler should fail to take advantage of it.

Winchester, Mass., says: I am personally acquainted with Mr. and Mrs. Carleton, and was astonished at the remarkable effects of your Sulphur Bitters in curing their son, and its large sale is undoubtedly due to the fact that it is an honest medicine. I know of many others who have

NEIGHBORHOOD.

PITTSFIELD.

Few if any townships in Washtenaw county are equal to Pittsfield in point of material prosperity, as any observing person will readily see by a drive over her well graveled roads, and look at her well cultivated farms, and substantial and often expensive farm buildings. Her sturdy and intelligent farmers are not slow to appreciate a good thing. Last year she was the only township to take advantage of the order of the Board of Supervisors to raise a fund to defray the expenses of re-locating her lost and doubtful landmarks, sechundreds of acres of otherwise undesirais well worth following.

March 6th, Pittsfield Union Home Mission society met at Mrs. Raswell Parsons'. A large and very pleasant gather ing of nearly fifty were present. Being the 55th anniversary of the weddings of Mr. and Mis. Philo Parsons, also the 50th of Deacon Canfield and wife, and 43 of Deacon Sweet and wife, Mr. and Mrs. G. Jarvis were present. A nice dinner was served at 1:30 p. m. which the ladies are larger collection than at any former meetsociety unite in wishing these venerable couples may have many more days, months and years of brightness and added useful-

SALEM AND SUPERIOR.

Mrs. P. Wyckoff has been spending a few days with friends in Howell. Pid Van Alta and Bert Cook of this place, who are going into the clothing business at Madstone, have purchased their stock and will start in business the first of this month.

Another of Salem's old residents died Sunday morning, Mr. John Peebles.

Miss Lucinda Yanson, who a short time ago fell and broke her collar bone, is do ing as well as can be expected.

Harry Haywood has received a position in a dry goods store at Detroit.

Mr. MacMahon occupied the pulpit last Sabbath for the first time in several weeks.

Mr. Chamberlin of Palmyra visited a Mr. MacMahon's last week. Fred Lowery of Lexington is visiting
